# TABLE OF CONTENTS

- Nigeria - Page 1
- 1 - Country macro economical overview, page 1
- 2 - Mobile subscription penetration, page 2
  - Number of subscribers at national level
  - Mobile subscribers CAGR 2013/2015
  - Number and list of mobile operators
  - Number and list of Tower companies
  - Number of mobile subscribers and penetration rate by mobile operator 2013,2014,2015
- 3 - GSM Mobile Infrastructure Network, page 3
  - Number of towers at national level
  - National telecom infrastructure CAGR 2013/2015
  - National 3G and 4G coverage
  - Number of towers by operator and Tower company 2013, 2014, 2015
  - Analyst of overview and future development
- 4 - Towers Power System Network, page 4
  - Number of good-grid, bad-grid and off-grid towers at national level
  - Number of good-grid, bad-grid and off-grid towers by operator and Tower companies in 2015
  - Analyst of overview and future development
- 5 - Towers Energy System Network, page 5
  - Number of sites 100% powered by diesel generators (main supply or backup), powered by hybrid systems (batteries + diesel generators) and by solar systems (solar panels + batteries +/- diesel generators) at national level
  - Number of sites 100% powered by diesel generators (main supply or backup), powered by hybrid systems (batteries + diesel generators) and by solar systems (solar panels + batteries +/- diesel generators) by mobile operator and Tower companies in 2015
  - Analyst of overview and future development
- 6 - Specification of telecom power systems (case studies), page 7
- 7 - Synthesis & Analyst Overview, page 8

# TABLE OF CONTENTS

- Democratic Republic of The Congo - Page 10
- 1 - Country macro economical overview, page 11
- 2 - Mobile subscription penetration, page 12
  - Number of subscribers at national level
  - Mobile subscribers CAGR 2013/2015
  - Number and list of mobile operators
  - Number and list of Tower companies
  - Number of mobile subscribers and penetration rate by mobile operator 2013,2014,2015
- 3 - GSM Mobile Infrastructure Network, page 13
  - Number of towers at national level
  - National telecom infrastructure CAGR 2013/2015
  - National 3G and 4G coverage
  - Number of towers by operator and Tower company 2013, 2014, 2015
  - Analyst of overview and future development
- 4 - Towers Power System Network, page 14
  - Number of good-grid, bad-grid and off-grid towers at national level
  - Number of good-grid, bad-grid and off-grid towers by operator and Tower companies in 2015
  - Analyst of overview and future development
- 5 - Towers Energy System Network, page 15
  - Number of sites 100% powered by diesel generators (main supply or backup), powered by hybrid systems (batteries + diesel generators) and by solar systems (solar panels + batteries +/- diesel generators) at national level
  - Number of sites 100% powered by diesel generators (main supply or backup), powered by hybrid systems (batteries + diesel generators) and by solar systems (solar panels + batteries +/- diesel generators) by mobile operator and Tower companies in 2015
  - Analyst of overview and future development
- 6 - Specification of telecom power systems (case studies), page 17
- 7 - Synthesis & Analyst Overview, page 18

# TABLE OF CONTENTS

- Egypt - Page 20
- 1 - Country macro economical overview, page 21
- 2 - Mobile subscription penetration, page 22
  - Number of subscribers at national level
  - Mobile subscribers CAGR 2013/2015
  - Number and list of mobile operators
  - Number and list of Tower companies
  - Number of mobile subscribers and penetration rate by mobile operator 2013,2014,2015
- 3 - GSM Mobile Infrastructure Network, page 23
  - Number of towers at national level
  - National telecom infrastructure CAGR 2013/2015
  - National 3G and 4G coverage
  - Number of towers by operator and Tower company 2013, 2014, 2015
  - Analyst of overview and future development
- 4 - Towers Power System Network, page 24
  - Number of good-grid, bad-grid and off-grid towers at national level
  - Number of good-grid, bad-grid and off-grid towers by operator and Tower companies in 2015
  - Analyst of overview and future development
- 5 - Towers Energy System Network, page 25
  - Number of sites 100% powered by diesel generators (main supply or backup), powered by hybrid systems (batteries + diesel generators) and by solar systems (solar panels + batteries +/- diesel generators) at national level
  - Number of sites 100% powered by diesel generators (main supply or backup), powered by hybrid systems (batteries + diesel generators) and by solar systems (solar panels + batteries +/- diesel generators) by mobile operator and Tower companies in 2015
  - Analyst of overview and future development
- 6 - Specification of telecom power systems (case studies), page 27
- 7 - Synthesis & Analyst Overview, page 28
